WEB DEVELOPMENT PROJECTS

HTML & CSS Project Portfolio

STUDENT DETAILS	
Name	Gudela Yashwanth Kumar
Roll Number	2600906
Branch	AIML
Section	1

This document contains three beginner-level front-end website projects developed using HTML5 and CSS3. Each project includes a visual preview and its separate HTML and CSS source code.

Projects included

1. Personal Portfolio Website
2. Digital Library Website
3. Online Electronics Catalog

Prepared for academic project submission

PROJECT OVERVIEW

1. Personal Portfolio Website
A personal website that presents the student's profile, education, technical skills, hobbies, projects, achievements, resume and contact details.

2. Digital Library Website
A library website for exploring book categories, book covers, author information, availability labels, a catalog table and library rules.

3. Online Electronics Catalog
An electronics catalog that displays laptops, smartphones, accessories and smart devices with product specifications, discount labels and a comparison table.

TECHNOLOGIES USED

• HTML5 - webpage structure and content.
• CSS3 - colours, spacing, styling and hover effects.
• CSS Grid - arranging cards in rows and columns.
• HTML tables - displaying catalog and comparison information.
• CSS media queries - adapting layouts to smaller screens.

FILE ORGANIZATION

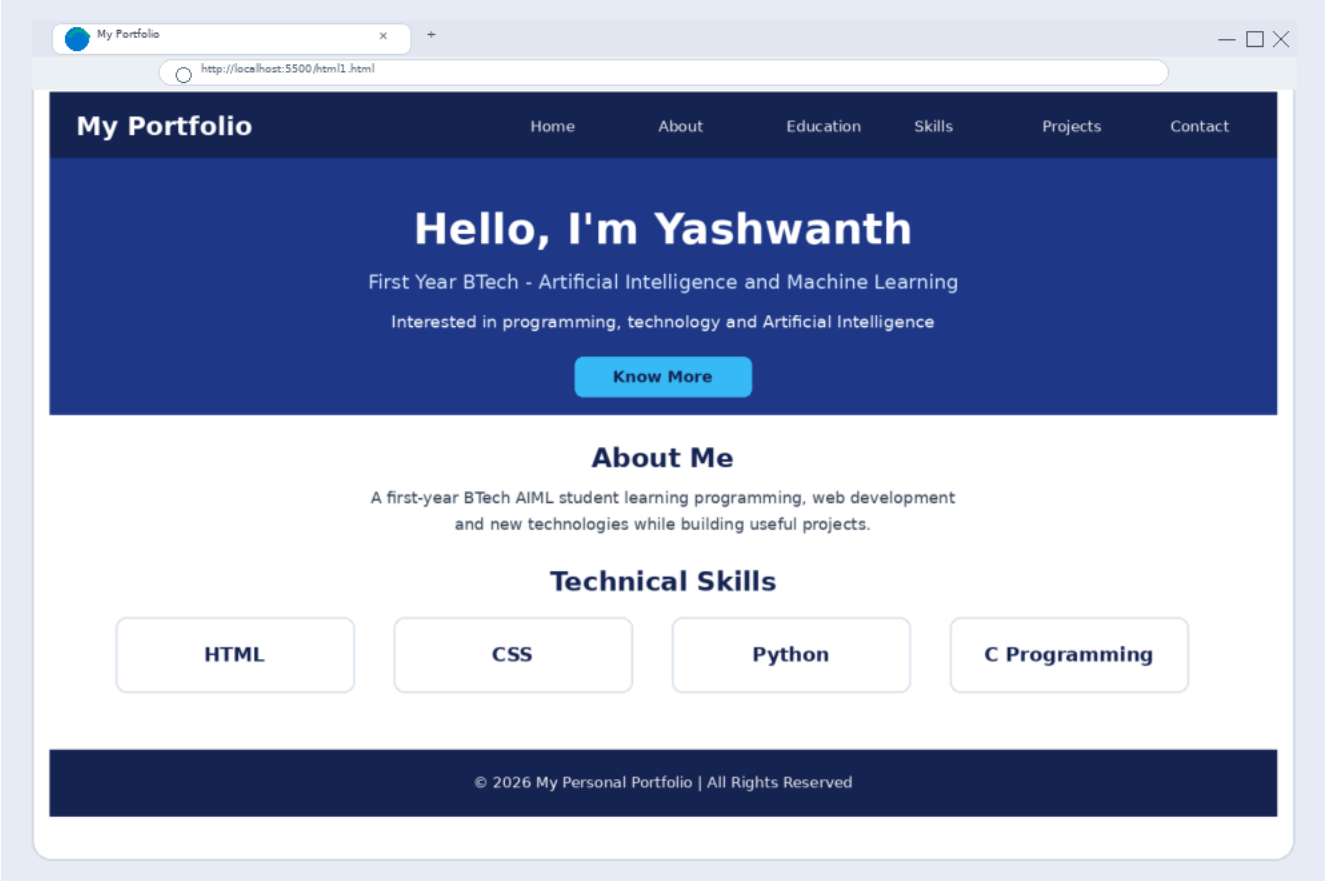

Project	HTML file	CSS file
Personal Portfolio	html1.html	style.css
Digital Library	index.html	style1.css
Electronics Catalog	index2.html	style2.css

Note: These are front-end demonstration websites. Search, filtering and other data-driven actions are visual interface elements only; they require JavaScript or a backend to function.

1. PERSONAL PORTFOLIO WEBSITE

A profile website presenting personal information, education, skills, hobbies, projects and contact details.

WEBSITE OUTPUT PREVIEW

Preview illustration of the intended browser layout. Book-cover and product visuals are sample placeholders.

1. SOURCE CODE

HTML and CSS are kept in separate files. Save each code section using the filename shown.

3. ONLINE ELECTRONICS CATALOG

An electronics catalog displaying product categories, product cards, specifications, discount labels and product comparisons.

WEBSITE OUTPUT PREVIEW

Preview illustration of the intended browser layout. Book-cover and product visuals are sample placeholders.

3. SOURCE CODE

HTML and CSS are kept in separate files. Save each code section using the filename shown.
